GO GREEN GALLOWAY TO HAVE FEATURED SPACE AT THE GALLOWAY TOWNSHIP BRANCH OF THE ATLANTIC COUNTY LIBRARY

The Task Force for a Sustainable Galloway (Go Green Galloway) will soon have a dedicated space at the Galloway Township Branch of the Atlantic County Library.

The books featured will address a wide range of environmental topics; including energy efficiency, water conservation, recycling & source reduction, declining bee populations, sustainable landscaping, composting & soil health, littering and storm water protection. There will be titles for all ages.

Our hope is not only to offer “one stop shopping” for those interested in learning more about the environment; but also to raise awareness about the many activities and events that our library has to offer (visit <http://www.atlanticlibrary.org/branches/galloway/>).

The books were courtesy of the Galloway Township Clean Communities Grant, the Recycling Tonnage Grant, and donations from the Go Green team.

Go Green Galloway is very pleased to be partnering with the library on this endeavor. The library also supports the GGG Environmental Film Series (resuming in January, 2014) and the Community Garden.

For more information, please contact Barbara Fiedler at bfiedler@gtnj.org.
